Phishing Zapper Crack License Key Full (Final 2022)

[Download](#)

Phishing Zapper Full Version Free Download [Win/Mac]

Phishing Zapper is a free software program. It is designed to alert you in case of phishing attacks. The database of phishing sites is updated regularly to make the program even more effective. It will raise alerts anytime you try to access a website that is suspected of being a phishing site. You can have more information about phishing websites or an e-mail you've recieved. The source of phishing messages can be easily revealed using Phishing Zapper's intuitive user interface. New phishing and malware messages are instantly added to the database. Options allow to block a suspicious website or e-mail or to allow the site to open or just to read the content. You can also backup your security settings and restore them easily whenever you need. An archive of the log of alerts helps to keep an eye on previous events, and a tool for archiving alerts is included. A LiveUpdate plugin ensures that you get the latest security updates. And with the help of Phishing Zapper you are safe even with vulnerable browsers and plugins. All Phishing Zapper's features can be fine-tuned. The settings can be saved to a readable format. Any time you want to change the settings back to their original values, you can do so with no data loss. [www.good-products.net] Scan Now And always be ready to respond online No ads. No banner ads. Phishing Zapper Crack With Serial Key Free Download

Phishing Zapper is an application that monitors the incoming email and web pages that might be phishing. Phishing Zapper provides one-step access to the security features that keep your computer safe. Phishing Zapper's database is updated regularly to be as close as possible to real time. Phishing Zapper also blocks 'phishing' scams which try to dupe you into entering your credit card information into false Web sites, typically posing as banks. Phishing Zapper is the safe, quick, and easy way to get an inside look at your email. It gives protection for home and business users. A popup window is displayed either when you receive an e-mail that is suspected to be a phishing e-mail or when you try to navigate on a site that is suspected to be a phishing one. This alert displays the phishing data and you can have more description when you move the mouse over it. Phishing Zapper is able to recognize phishing emails pretending to come from eBay, PayPal, Amazon, eGold and hundreds of other financial institutions. Here are some key features of "Phishing Zapper": ⦿ The Phishing Doctor intuitive interface provides one-step access to the security features that keep your computer safe. ⦿ Optionally display alerts whenever you recieve any e-mail that is suspected to be a phishing e-mail, or whenever you attempt to access a phishing website. ⦿ Get detailed information about any Scam E-mail your recieve or any Phishing website that you access. ⦿ You can easily choose whether to allow or block the suspect websiteor e-mail. ⦿ Use a password to p revent other people from changing your security settings. ⦿ Back-up your security settings and restore them easily whenever you need. ⦿ Alert and logging features keep you aware of what's happening on your computer without being highly intrusive, and enables you to go back at any time to investigate past alerts. ⦿ At regular intervals, the content of the log is archived to a date-stamped file. ⦿ With LiveUpdate you get protection from most scammers and the latest Phishing threats. Phishing Zapper Requirements: ⦿ Microsoft Windows OS Phishing Zapper is a powerful application that provides one-step access to the security features that keep your computer safe. It has a specially designed, intuitive interface 6a5afdab4c

Phishing Zapper Crack+ [Mac/Win]

You can change the security settings in 2 ways: Create the report. Report to the security report and have it archived automatically, receive a summary email with the listing. (Default option) Clear the report. Delete the report to start afresh. You are not reminded of future report. The security reports are not saved to your computer, they are stored in the Download folder of the program in the Archive folder. This is how it works: When you click on the "Report" button. You get a preview of your email and website. Click on the link and it redirects you to the phishing page. You will see the detailed information about that e-mail and website. You can change the security settings, either by choosing to allow or block the site or email. You can also configure the report to receive an e-mail with a summary of all your reports. If you do not want to receive the e-mail with the summary of all your reports, you can clear the report by clicking on the "Clear" button. Features: ⬚Phishing Zapper is an application that monitors the incoming email and web pages that might be phishing. ⬚Phishing Zapper provides one-step access to the security features that keep your computer safe. ⬚Phishing Zapper's database is updated regularly to be as close as possible to real time. ⬚Phishing Zapper also blocks 'phishing' scams which try to dupe you into entering your credit card information into false Web sites, typically posing as banks. ⬚Phishing Zapper is the safe, quick, and easy way to get an inside look at your email.
