The project is being 4D modelled using Synchro PRO 2017; an integrated 4DÂ . We can all agree that progress needs to be achieved in the construction sector to keep growing. But in order for us to continue further, a few things have to happen. We have to improve methods, and we have to do better work. When it comes to the work itself, we have to use better techniques, better materials, and better methods. Work is the most important thing, because without this we have nothing, and without work, we are nothing. In order to accomplish all of this, we need to find
