The landscape-oriented design of Adobe Photoshop, combined with its powerful features, makes it a more powerful and far-reaching tool than most similar products. It can take your digital photographs to the next level, make them more than just pretty pictures. However, it is an incredibly complex tool, so if you want to edit your images or create them from scratch, you may be better off exploring free or low-cost alternatives. * * * # Laying images on top of one another: Using layers To work in Photoshop, you need to understand the concept of layers. Layers are like pages of a book or movie frames — each one is an image in a Photoshop file. Any part of the image can be on any layer, and it's simply a matter of moving or cropping the parts you want to work on. Whenever you add a new layer, Photoshop automatically creates a new blank or empty layer beneath it. Each layer can have its own adjustments, fill, and effects, so that whatever's on top of it is not obscured. You can also manipulate the layers, but any changes you make will always be on the layer below. Here's how to add a new layer using the default settings: 1. Choose Photoshop⇒Preferences⇒Layers, or use the Layer button at the bottom of the Layers panel. The Layers dialog box appears. 2. If the Layers panel is not open, click the Layer button at the bottom of the Layers panel to open it. 3. Choose New Layer from the Layer Type drop-down list. 4. Click Create Layer. Photoshop creates a new layer and places it beneath any layer that you have selected. The new layer name is automatically added to the list. You may be interested to know that you can switch between different layers in a file by selecting Layers⇒Layers and then using the Layer With and Replace With buttons. Photoshop adds layer style options in the Layers panel to determine how the new layer will look when you apply the Paint Bucket or Eraser tools to it. The Layer Styles options found in the Layers panel let you change the type of layer and to apply different effects, such as curves, reflections, and shadows. In many cases, layer styles can perform the same actions as paint or erase, making them a useful feature. Layers can be used

Why I Quit Twitter - secondo ===== dep_b You're not going to convince me, again, that Twitter is good for someone, influencing their thoughts, not until you announce that it is. ----- corresation This is a parody. An interesting parody, but a parody. It's posted on Bitter Sweets ([sweets.net/](under the title "Why I Quit A Company". While it is totally neat, it's quite funny in the way it mocks the whole process of SEO for a comedy. ~~~ justinchen The article is not a parody. Andrew is the author and the article is actually very good and thought-provoking. An expectant mother is suing her ex-partner for \$1 million, claiming he promised to pay for a home birth and then aborted the pregnancy. The mother, Holly Johnson, is suing her ex, Michael Rosby, for false imprisonment, intentional infliction of emotional distress and medical malpractice, according to a lawsuit filed in Los Angeles County Superior Court on Monday. Rosby, 38, of Fresno, Calif., declined to comment. His attorney did not immediately return a message seeking comment. On July 21, 2013, Johnson, 32, went to Rosby's family medicine practice in Fresno to meet with him. They were seeing each other after a tumultuous relationship and she was pregnant, the lawsuit states. On July 22, 2013, Rosby told Johnson that he would pay for a home birth, but he never paid for a home birth, and instead induced labor using birth control pills, the lawsuit states. A week later, the baby had already been born, the lawsuit states. Rosby never showed up to meet the baby or take the baby home, the lawsuit states. Johnson sued and served Rosby on October 7, 2013, the lawsuit states. She also took out a civil protective order against him the same day, according to the complaint. However, on March 14, 2014, Johnson started to suspect something was amiss with the baby and contacted Los Angeles police. After conducting a welfare check on the baby, the Los Angeles Police Department informed Johnson that she
